Instructions For Use
RHINO KNEE SUPPORT
Published: 2024

DESCRIPTION

The Rhino Knee Support is a medical device intended for use with pediatric patients to stabilize the knee during rotational and anteroposterior forces, may be used with treatment and/or rehabilitation of ligamentous knee injuries, and as instructed by a healthcare provider. The Rhino Knee Support is made with an extra pad at the knee for compressive support and protection. The Rhino Knee Support comes in open or closed patella models. A consistent examination scheduled with the clinical provider is needed to ensure proper fit, use, and instruction for caregivers and/or users. Compliance with instructions for use and clinical care treatment plan is important to achieve clinical and therapeutic outcomes.

MATERIALS

The Rhino Knee Support is made of Neoprene.

INDICATIONS FOR USE

The Rhino Knee Support is a medical device intended for use with pediatric patients to stabilize the knee during rotational and anteroposterior forces, may be used with treatment and/or rehabilitation of ligamentous knee injuries, and as instructed by a healthcare provider.

WARNINGS AND PRECAUTIONS

- Follow the qualified healthcare provider and physician instructions or treatment plan.
- Follow instructions to ensure Rhino Knee support is tightened properly, to reduce risk of irritation, blisters, and pressure ulcers.
- Consult your healthcare provider immediately if the child is experiencing pain, irritation, blisters, swelling, pressure ulcers, or if the brace is not fitting properly.
- Protective barriers (i.e. provided stockinette) should be worn when wearing the Rhino Knee Support.
- The Rhino Knee Support should be used without additional components or accessories, unless instructed by the healthcare provider.
- Do not use a Rhino Knee Support that is damaged, broken or not functioning properly.
- Modification is not recommended for the Rhino Knee Support.

MRI SAFETY INFORMATION

The Rhino Knee Support brace is MR safe.

CLEANING INSTRUCTIONS

- Wash on delicate cycle or hand wash with mild detergent. Rinse thoroughly.
-

STORAGE AND HANDLING

- The Rhino Knee Support requires no special handling during transport or storage.
- The Rhino Knee Support is a nonsterile device.

APPLYING THE BRACE

Follow clinical care plan and clinical provider guidance for application.

1. Closed Knee Support

2. Open Knee Support

REUSE LIFE

All parts were designed to be used by a single patient under normal use conditions and as instructed by a healthcare provider. Normal use includes the daily application of the Rhino Knee Support as healthcare provider instructed.

SAFE DISPOSAL

The Rhino Knee Support can be disposed of in the regular trash. None of the components of the device are recyclable.

IMPORTANT STATEMENT

- MD Orthopaedics, Inc. does not provide medical treatment, advice or recommendations about the risks and benefits of medical treatment, including treatment that involves the use of MD Orthopaedics, Inc. products. This information should be provided solely by the physician or other qualified health care provider treating your child. If you have questions about your child’s treatment, it is important for you to discuss those questions with the appropriate health care provider.
- The manufacturer and distributor are not liable for cases of material damage or personal injury caused by incorrect handling or non-compliance with instructions. Normal use is defined as a single user following intended use.
- Instructions for Use (IFU) are available in English at <https://opsb.com/ifu>. To obtain a copy of the paper IFU, please call Customer Service at MD Orthopaedics, Inc. at (877) 766-7384.
- If a user and/or patient experiences any serious incident that has occurred in relation to the device, it should be reported to MD Orthopaedics, Inc. and the competent authority of the EU and EEA Member State in which the user and/or patient is established.
